EXPERIENCE

MIV APNA OPD HEALTHCARE SERVICE PRIVATE LIMITED

Jun 2025 - Sep 2025

Full Stack Developer

- Contributed to the development of ApnaOPD.com, a healthcare platform offering online medical services.
- Developed scalable modules using React.js, Next.js, and Node.js, enhancing user experience and platform functionality.
- Collaborated with cross-functional teams using Git and agile methodologies to deliver high-quality features on time.

PROJECTS

Nxt Watch [Link](#)

- Developed a YouTube clone application using React.js, enabling users to log in, view trending, gaming, and saved videos, and search for specific video details.
- Implemented authentication and authorization using JWT tokens, ensuring secure user sessions and API calls.
- Designed and integrated dynamic routing for multiple pages, including Login, Home, and Video Details, using React Router.

Emoji Game [Link](#)

- Created an engaging memory game using React.js, where users click on emojis without repeating selections.
- Utilized React components, props, and state management to enable dynamic gameplay and conditional rendering.
- Enhanced the user interface with CSS for a visually appealing and interactive experience.

Nxt Trendz (E-Commerce Clone) [Link](#)

- Developed an e-commerce platform inspired by Amazon and Flipkart, featuring product browsing, login, and product detail pages.
- Implemented secure user authentication using JWT tokens and managed user sessions with local storage.
- Integrated REST API calls to fetch and display product data dynamically, ensuring a seamless user experience.

ACHIEVEMENTS

- Participated in a techathon organized by Invertis University, successfully completing a project within the deadline and learning time management and practical problem-solving.

CERTIFICATIONS

Python for Data Science

SQL and Relational Databases
